

Alianza Evangélica
Española

Juntos para transformar el mundo

Dear members of the board of the Evangelical Alliance of Italy,

As we have known you are approaching the date of the March for religious freedom and pluralism in the media, on behalf of the Evangelical Alliance of Spain, we would strongly support your initiative.

With a similar religious situation in Spain, we know how difficult it is to live in a country where all the citizens are not equal before the law. Some have privileged rights than others.

As you say in the manifesto for that March: "Religious freedom is the mother of all liberties". The Evangelical Alliances all over the world has been, from its creation in 1846, one of the leading forces for the recognition of that fundamental right for all people from every belief.

We hope that the 19th. of June will be a date to remember in the history of religious freedom and respect for all beliefs in media in Italy.

Yours faithfully,

Jaume Llenas
General Secretary
